INFORMATION FOR STRANGYAS.

To borrow the expression of a well-mown writer the Territory of Coloraco stratistics the docky Rosintains time a saddle—a part of it being on their eastern fank, a with in their western flank, and a part of it being taken us by the mountains themse ves. "It lies between the 37th a life test parallels of north latitude, and the toast and test marrials of north latitude, and the toast and test marrials of north latitude, and in the coast and test marrials and west on the bornski, and on the east by Nebrassa and Kansas, and on the south by New Mexico, ahe cut the west by Juli. In a rea embraced forms nearly a square, containing about 106.45 souther miles, on 67.420,000 acress—a greater extern of country that all of threat thisan, with a colony or two inclused and quite as large is New York, Pennsylvania, and A assachuretts, with New energy thrown in for grood measure."

For many reasons, Coloraco is one of the most remarka-

For many reasons, Colorago is one of the m at remarka-ole sections of country on the face of the farts. Though not geogra-shielt y, it is, really, the centre of the North American Consistent. Up to its giant peaks, there is a gradual slope on every side, from the Atlantic on the east, the Pacific on the west, the Culf of Mexico on he south, and the confines x he Pular Sea on the north The dwellers on its ' plans' or londer lands, live, or the average, about a mile above the leke of the sea; will a hose who live in its "mountain towns," are lifted still nearer heaven.

Its scenery is magnificently grand. Its climate is deli-eiously cheering and health it. The clear air and the might sunshine, which continually characterize it, act like a charm upon the system, invigorating the bodily pomers and inducing constant "good spirits." They fromers and arrity of the atmosphere reader it especially suitable for such as are of consumuits in not made readers, or surity of the atmosphere reader a especially some reposition as are of consumptive for ast matic tendences, or suffer from any affection of the throat or lings; setconnects the discusse has cotained too firm a grip—are a most cortain to regain health and Freng h.

The resources of the country are almost inn less and in-I les mountains are seamed and streaker with protions wealth of all kinds ego il and silver, copper as d'eat, cod

Cradled in their brawny arms and lying as their out-spread fact, are peaceful valleys, wherein the former raises of pear rich abundance. Owing to the small annual gry-sa-gition is necessary to fly cult vation of the soil; but this, then understood, is computatively little labor, and the more than compensated for by the great yield which is off.

Listuard from the momentum the "oreat plains" streng a railmost boundless extent, covered with rich guisses, which conder them the best pastures in the works. Sheep and with the destinant. Duty the languages could be fall, the dryness, of the amosphere entire the fall. leaving them standing upon the ground as natural 12.7 course of the year, in mas as that a near the the waver stock of feed, needing no preparation at a new properties and the transfer of the year, in mass as that a near the transfer of the year, in mass as that a near the transfer of the year, in mass as that a near the transfer of the year, in mass as that a near the transfer of the year, in mass as the transfer of the year. िभाषास्

FL PASO COUNTY.

that the effect of remain in a lag, they that it.

If I have County is one of the central country of the left of the year of the principal physical characteristics—mountain, valley, and plain. Along its hard of its principal physical characteristics—mountain, valley, and plain. Along its hunthern border strendless the Great Chlorado "Divine". hinthern'border strenches the Great Colorado. "Divine," a pine-covered mountain spir, which takes its name from the fix that it separates the sections of country tribusary to the chief error of the Territory, the Platte in the meth in I the Arkansas in the south. From the # Divide" the country has a continual slope southware, its souther to indary being eighteen miles north of the Arkansas, the Il stance from north to couth being about forty two moses. It is southware slope—expressing he woole off are country, is a garden wal, to the full similigat shall a marked off ct upon its chimatic character sites. The distance from the eastern boundary of the country to the loss of the mountainers among forty miles, and beyond that, the country cubeaces about thirty miles, and beyond that, the county embrases about thirty in es of mountainous com-thy, making the total width about seen combes. The dead the odes about 1,1937, 110 acres, of which upwords of \$4,-

Though Pice's base-the great had point of the gold's extremen which first arought Colorado and notices-as smated in the county, there are tow, if any, know, will intelled eposits of the precious metals here e. EP Poso comments has no place amongst the mining consumes of the Territry It has, however, the advantage of a market of the morning districts to the west, which are reached by the Field Res. A Victing in tencher the gesting homes out don't great min grantee, being amongs the righest in the Terrimont help a soling in which a product life and the project will cause a large demand for agreeditural and

A ost of the agricultural land which can be watered ones, which to degeneral sport sam were what already taken up, and such lane is now worth from 510 m to 11 sole too stangers, and hid must dimb over 522 per acre. Experiments, however, with horty be made direktly-text is, by disches trken out of the creeks-is in the matter of artestan walls, and, if they prove successful, thousands of arrest of the most temping land—at B. gen for pre-emption—sell be made as dable for iring the mand cultivation scattered through the mountains are namer us small ratches, or "parks," on which grains and vilgate his, of the first quality, can be mised to even greater advantage than in the lower valleys.

In like manner, most of the and, as idables for stock In like manner, most of the and, as itable for stock rappy. In mag water upon it has been taken up, and rabe as command from \$7.50 to \$6,500. There can be not doubt, however, that almost anyla here do the phone, we will be sork at a small expense, if in months under con't berfrance by wind-moils or other means. Necessary has not yet driven the people to, intention, included as every not yet driven the people to, intention, included as every manifest the fact that is another which has been regarded as withouts is in reality of the most chirable character. ed as valueless is in reality of the most valuable tharacter, I when a little trouble is token to aid. Nature by the con-

tri ances of art. an progress of the Stock Intonests of the county may be gathered from the following figured taken from the Assistant's toports for 1871 and 1172. In the himner sent there were 779 horses, roa moles, 2, 741 sows, 2,321 ocent 3,000 sheep, and 250 sowne. In 1072, there wike 974 horses, 9 moles, 6,38 cows, 2,143 ocent, 2,5 colors, 50,54 sheep, and 250 sowne. Last scan, 6,3 colors, 50,54 sheep and 6,38 swire. Last year, the woolvery of the county an amited to 174,312 pointle.

he Lumber Trade is an important part of the besines | Springs.

CORORÁDO S RISUSE

This town of Colorado Springs is situated in the centre of A Passe county, at a point wage the Moniment Creek mutth with the Fontaine on Bouille, and where the Ute Pass opens men the plaint

him march at the sear of his con man, or some cause not made pilled, he species a at the hindred at springs in the monetage neighborhood. The past important of these are grouped ngether about five miles to the was issued. That cell parte swere distroyed in sal, and the objective are so acing there is no beautiful glen, to which has been given the masse of Mariton. These are the celebrated "Bidings of Mariton," here are the celebrated "Bidings," which years ago, were made known to the work with Workestershife same. natural phenomenn caused by the direct aptipe of the Orect Spirit. In latter times, notwithstarding the difficultity of access to them, their fame has attracted in general beroof invalues anxious to avail themselves of the dealing. bers of invalins, anxious to avail themselves of the fealing waters. During last year, large sums of money have seen leave the ground in the mergh burbooth a ham some, commodous, and comfortable hotel has seen built, bath-houses have been fitter up, and many other conveniences provided. Now that there famous springs are at easily accessible, and that every provision has been made for the comfort of visitors, there can have doubt that allow years will suffice to make there can he no doubt that affew years will suffice to make them an authorive appoint as is Saratogam the East. Thousands will throng to them every year, and many will take it; perfitment abodes around them. The springs are seven a number, and are useful both for drinking and, batting purposes, being highly beneficial in rheumatism, skin discusses, genera debility, and numerous other ailments which we need not cata ogue.

In addition to these wonderful springs, some of the most remarkable and magnificent sceneryion the American Con-tinent is in proximity to the town.

Directly in front is Pike's Peak, the most celebrated of the Rocky Mountains, rising to a height of urwards of 14,000 feet above sen level, its head covered with show a f 14,000 acet above sen ievel, its nead covered wit snow a the year. Right and left of the leak is a long range of "Foot-filds" lofty mountains they would be ermed in any other land, "infinitely diversified with variety of form and on-line, with rocky crags and timbled bon ders and smooth slopes, with constant play of light and shade, with contrast of rich and somere colors, with streaks of snow and dark groves of pine"—the way e forming a panarama of exceeding beauty, of which the eye never tires.

Three miles from town is the woncerful and famous Garden of the Gods," in which huge rocks, hindreds a feet high, and of the most famustic shapes, and gorgeous colors, own a scene which excites the wonder of all who the highest count ever reaches by a ocomotive, and through some of the lifest scenery of the South American mountains regions. Among other attractions of the rotte is the coeprated are interest, the scenes of which are sorted by the raily way, and which is the rights of the southwest of the town is "Cherente Canon," other and beautiff five miles to the southwest of the town is "Cherente Canon," other and magnificent gorge, whose student us wals of rock and heautiful water alls give it an a most unrivaled grandem. Twelve miles both is "A onument Park," stinded with the rail that word, he greatest e evation on the ine is 12,663 ee', at a nich a titude the Summer temperature drops as owns 34 cegrees, and the University of the southwest of the Caron, and the University of the southwest of the continues. colors, orm a scene which excites the wonner, colors, orm a scene which excites the Willen Eyrie, behold it. Close to the Garden is "Glen Eyrie," behold it. Close to the Garden is "Glen Eyrie," of this point," says a recent writer, "once into the heart of the mountains."

A Ca normal over 121 proven as severy miles. The Springs and the scenery commens are examinated a string rice of one in increase and twenty miles i themselves, to build up a town of considerable size and infor a rice. Preserving times 2 to the clerk of portance, here will be a place of resort—of a most the world over. The world over the world over the world over the world over the resort—of a rice will be a place of resort—of a most the control of the clerk of the cler equalec attractions—crown the world over the year brought thousands of visitors, from a most every State in the Union, and from foreign lands, and each stateed in season will bring an increasing throng; which many, who are in search of health, have arready chosen it as feur per-imanent dome, and many more wil settle here is order to secure the same inestimatie Youn.

Every ling possible is being done to her lites the attractive character of a sost on which Nature has estowed so many at vantages. It is intenset to make to arrow Springs not only Ismous is a Sanitarium, but also as an educational centre, and a home of reduced society large. educational centre, and a home of reflect society—argo reservations have been made for school and sincred insti-tutions, and the form, although shifts in its infrace, has indertaken the erection of a cest year-on house. Whose streets and avenues and spacious sculpter have been as a

Ample imas wir accurry are to carry on the work of beautifying the town, of erecting public hulldings, are of constructing necessary public works. The form is a Commy dwn, and the who e of the profits deriver from the sale of the Colony Lots and Laucs, are appropriated to his improvements. The land having hear bought in a generated at low rates, and being said to colonism in small its at advanced figures, many trousince of dollars will this be devoted to the murroser marker. will this be devoted to the purposes named.

revens may become or onism by mire assing certificates of men bers up, which are of four grades, according to the privile me conveyed: \$50, \$75; \$150, \$200. A certificate entitle a member to ocate certain on and lates. Telse are of three denominations: "Assine's Lots," 25 feet by 160 feet, ranging in prices from \$100 to \$250; "Residence Lots," 50 feet by 190 feet, and 100 feet by 190 feet, ranging, in stices from \$50 to \$150; "Outlying Tracts," to the forcest ig sizes and prices: One-acre tracts, \$50 to \$50 un acre; twenty-acre tracts, \$200; test-acre tracts, \$30 to \$50 un acre; twenty-acre tracts, \$30 to \$50 un acre; tracts, \$150 to 220. A 150 certificate entitles its holder to locate a \$50 res dence at a \$75 certificate, any residence, of irre-\$50 res dence at a \$75 certificate, any residence at tree-spective of price; a \$150 certificate, to ocate a lineiness and residence of, or a business of ant ondlying tract, or a residence lot and onlying tract, provided the total value of the ands located does not exceed \$200; a \$200 certifi-cate to locate similar business. of the states meating ones not exercise 300; a \$200 certificate, it locate similar lots as the previous, but rrespective of price. The amount pass for the certificate is credited for the 'ots' located, and the 'adance' if the value of the loss exceeds that of the certificate can be sait any time. ions exceeds that of the certificate can be sait any time within we've mouths of the location or earlier first location, if more than one is made upor the same costilicate. Members may take off as many certificates as they please, but are notine, to make one improvement, that is to put us a bouse; or make some equivalent, expenditure for each certificate, within four months of making the first location and it. There this hadron and the manner of the location certaining, within four months of making the first lication upon it. Upon this being done, arto payment of the lots on alexed, deeds are given conveying fir title, with one co-acition, however—that no intolyicating licates shall ever be sold on such lots in any premises asving the character of a place of mblic resort; breachiof this condition involves forfeigure of the property.

The lands a yout the "own, of which the Colony possess. about reaco arres, are excellently adapted for cultivation.
A great portion is almost as flat as a taile, with an exceed ing y slight dose so that it can be irrigated with the otmost factary. Irrigating canals have been constructed and targe reservoirs for the puriose of storing water is in insummed against exceptional y dry sensons. The locality and the fail are especially situable for it e cultivation is small fruits, and for these a ready market will be found. shall frests, and for mese a resay marker was secondary legislikes to the supply required by the Town and by the mines not far away, a company, has been formed for the purpose of establishing a Canning Factory in the Town so soon as the quantity of fruit grown s.la lexiced the

he procress already made by the flown, has been astonishingly ripid. Up to date—that is little not to than each trem months from the commencement of the contemprise out, on most of which two locations have been made. The population, according to the spearest estimate we can film, is between fifteen and eighteen undered. The various institutions necessary to a well ordered communiva cous distinuions necessary to a well ordered communi-ty, have been unickly got into working or fee. If ore are two charches built, one in course of creeting, and another very shortly to be dominenced, two publicschools, a ye,euth, a newspaper, a postoffice, a telegraph office, a bath three or four arge hotels, numerous b sarding himses, successful finds, we'l stocked—where the favories as well as the necessaries of life can be obtained - linkery stables, etc. The Town has been organized with trustees and other officers, and several computies have been formed for the prosecution of important commercial uncertakings—including a steam saw-mill in across operation, bries-man-informer fruit-dening and macross operation, bries-man-informer fruit-dening and former formers. ufacture, fruit-danning, etc. in short, the basis has been well laid or growing progress and prosperity.

To such, therefore, as are seeking new homes, Co orado Springs ofer ac vaninges of the highest order.
